

Express Mail Label No.: EL 640 011 422 US

IN THE U.S. PATENT AND TRADEMARK OFFICE

May 23, 2001

Applicants : Tadashi FUKUMOTO et al

For : BREAKWATER GENERATING STRUCTURE

Atty. Docket No.: Ishii Case 16

Assistant Commissioner for Patents  
Washington, DC 20231**PRELIMINARY AMENDMENT CANCELING CLAIMS**

Sir:

Prior to calculation of the filing fee in the above-identified application, kindly enter the following:

**IN THE CLAIMS**

Please amend Claims 3, 4, 7, 10 and 11 as shown on the attached marked-up page. Pursuant to 37 CFR § 1.121, a replacement page with the amended claims presented in clean form is also enclosed.

**REMARKS**

This amendment cancels claims to reduce the filing fee. Please enter this amendment before calculating the filing fee.

Respectfully submitted,

  
 Terryence F. Chapman

3. (Amended) The breakwater generating structure according to ~~the claims 1 or 2~~Claim 1, wherein said reef has a breaking wave generation section formed as a closed upper portion which is defined between said vertical wall and said slits.

4. (Amended) The breakwater generating structure according to ~~any one of the claims from 1 to 3~~Claim 1, wherein at least one hole is formed at the bottom of said reef.

7. (Amended) The breakwater generating structure according to ~~the claims 5 or 6~~Claim 5, wherein said reef has a breaking wave generation section formed as a closed upper portion defined between said vertical wall and said slits.

10. (Amended) The breakwater generating structure, wherein the breakwater generating structure of ~~any one of the claims from 1 to 4~~Claim 1 is placed on a support comprising a leg structure.

11. (Amended) The breakwater generating structure according to ~~any one of the claims from 1 to 6, or the claim 10~~Claim 1, wherein a height of a coast side wall of said reef is higher than a height of said vertical wall and positions of said slit are arranged to become higher toward said coast.

3. (Amended) The breakwater generating structure according to Claim 1, wherein said reef has a breaking wave generation section formed as a closed upper portion which is defined between said vertical wall and said slits.

4. (Amended) The breakwater generating structure according to Claim 1, wherein at least one hole is formed at the bottom of said reef.

7. (Amended) The breakwater generating structure according to Claim 5, wherein said reef has a breaking wave generation section formed as a closed upper portion defined between said vertical wall and said slits.

10. (Amended) The breakwater generating structure, wherein the breakwater generating structure of Claim 1 is placed on a support comprising a leg structure.

11. (Amended) The breakwater generating structure according to Claim 1, wherein a height of a coast side wall of said reef is higher than a height of said vertical wall and positions of said slit are arranged to become higher toward said coast.
